OL has been tasked to provide input to the DDA for the DCI's Annual Report to Congress. As stated in the tasking memo (copy attached), our input should cover calendar year 1982 and address the following points: component overview, performance highlights, problems, resource needs, relations with customers and future plans. We have some useful information on file as a result of the recent preparation of the Five-Year Plan and Long-Range Plan. However, we feel you may have additional comments for your component, particularly in the areas of performance, problems, and relations with customers. May we have your input by 2 December 1982.

Per our conversation on Wed.
P+TS has no input to contribute.

6 to C/P&PS/OL:

I discussed this with who agreed to provide comments applicable to procurement.
